

Success Story Release Statement

Your story will inspire others!

We want all children to grow up believing that the stars are within their reach and for that belief to continue into their adult life, knowing that they can achieve their dreams. We want to foster independence and help students with exceptional abilities to see their strengths and successes in a world where sometimes they get shadowed by their disabilities. By sharing your story, you are showing children, parents, and other students what is possible, encouraging them to never give up. Also, our supporters, donors and funders want to know how Family SOUP helps make a difference for children and young adults with special needs. You have helped to keep this scholarship going by sharing your story, allowing us to award more students in the future.

My Success Story Essay Submission
